

Steve's Plant Diagnosis Procedure

* When did you start seeing this problem?

* What kind of plant is it?

* Is it in a pot or in the ground?

* Is it in the sun or in the shade?

* What kind of soil is it in? Where do you live?

* Did you amend the soil? With what?

* How often do you water? How long do you leave the water on each time? Do you wet the leaves when you water? What time of day do you water?

* When was the last time you fertilized the plant?

* Have you sprayed anything on the leaves or nearby?

* Have you applied anything to the soil around this plant or nearby? Has Weed-and -feed been used nearby in the last two-months? How close is your neighbor's yard? Do they use weed-and-feed?

* Can you see the root flare of the plant?
